WHY NORTHWEST OHIO?

“We have a loyal, dedicated group of employees with a strong work ethic. Absolutely workforce was a key decision. They are craftsmen, and I’d put their work up against anyone. Understanding the work ethic of this region, we know we’ll be successful in finding the right people.”

– DAN WRIGHT, PRESIDENT & CEO, PARAGON TEMPERED GLASS

“We are very excited about the economic growth opportunity of a new production line in our Toledo facility. However, we know that we cannot succeed without a strong and committed workforce. The city of Toledo and its economic development partners have been exceptional in helping us meet that goal.”

– TRINA BEDIAKO, CEO, NEW HORIZONS BAKING

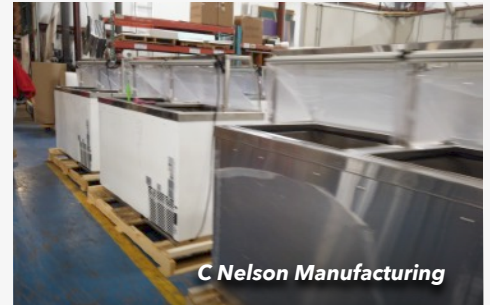

SUCCESSFUL INITIATIVES

JobsOhio Inclusion Grant

The JOIG provides grants for projects in distressed communities and businesses owned by underrepresented populations such as minorities, women, veterans and those with disabilities. Support is intended for small and medium-sized businesses with annual revenues under \$25 million. In 2023, the RGP facilitated 32 projects with Northwest Ohio businesses to secure grant funding exceeding \$1 million, leading to the creation of 126 new jobs.

Vibrant Community Program

JobsOhio’s innovative Vibrant program assists distressed, small and mid-size cities with the implementation of catalytic development projects that fulfill a market need and represent a significant reinvestment in eligible cities. Over the last two years, the RGP has helped facilitate more than \$5.5 million in program funding to communities across the region, where total project investment exceeded \$44 million.

OTHER HIGHLIGHTS

- Annual RGP FAM Tour attracted nine national site consultants for a three-day period to learn about the regional assets and hear industry executives discuss doing business in Northwest Ohio.
- The RGP business development team created a strong focus on attracting technology companies to the region, including the hiring of a business development manager dedicated to the technology effort.
- Aggressive digital advertising program produced 100+ leads, reaching key target audiences in a cost-effective manner.
- International attraction efforts generated more than 900 new jobs and \$850 million investment from 16 companies representing countries such as India, Korea, Japan and Italy.
